★★★★★

He doesn't play the charisma card, but when David Gilmour's guitar takes off there isn't a sound in the universe to match him.

This sensational DVD recaptures the magic of his Royal Albert Hall gigs in 2006, which showcased his Olympian talents. The blissed-out blues of his solo album *On an Island* are followed by storming versions of Pink Floyd classics, including a majestic *Echoes*. Now or then: it's still the perfect show.
